

The BOX Seat - 'just metres from the water's edge' during the most spectacular show of the year.

OPERA AUSTRALIA

In a bold endeavor, Opera Australia's site designers floated a 40-tonne stage on Sydney Harbour for their spell-binding production of 'Carmen'. The BOX Seats were installed just meters from the water's edge so that

spectators could feel that they were in the play with the performers. Overlooking the world-renowned Sydney Opera House, this event has been dubbed 'the most spectacular show of the year'.
