

"It's amazing man, it's crazy how they built everything in a month and a half, exclusively for my title match.

Heavyweight Boxlegend Andy Ruiz Jr.

## CLASH ON THE DUNES

'Clash on the Dunes' arena in Saudi Arabia was built at the UNESCO heritage site Diriyah to seat 15,000 attendees who will witness the biggest sporting event in the Middle East. The arena was built from scratch exclusively for the heavyweight world title match between

Anthony Joshua and Andy Ruiz Jr. The stadium was built from almost 300 tons of steel and covers an area of 10,000 square meters. The BOX Seat collection was selected for its fast-assembly benefits, which were crucial for the success of this venue.
