

Its dramatic intimacy with steep and asymmetrical stands, make this a unique arena.

# JORDAL ARENA OSLO

Built upon the footprint of its forerunner – the legendary Jordal Amfi – the new Jordal Amfi arena has a spectator capacity of 5,300. Hille Melbye Arkitekter have designed and optimised the arena for national and international ice hockey events, while it can also host other

sports and events. The facility is located in the north-west corner of Jordal sports park in Oslo. Its dramatic intimacy with steep and asymmetrical stands, make this a unique arena.
