

The BOX Seat boosts revenue by increasing capacity to 65,000 for match days and concerts.

LANCASHIRE CCC

An aesthetic blend of the BOX Seat 901 and the VIP 908 models provide the seating solution for the home ground of the Lancashire County Cricket Club. Playing host to international Test matches since 1884, the stadium is one of the most significant grounds in England.

Additional seats extend the match day capacity of 50,000 to reach up to 65,000 for large-scale concerts, boosting revenue opportunities from musical events that have formed an integral part of the stadium's programme.
